XYZMO OPENS US HEADQUARTERS

JERSEY CITY, NJ (February 5, 2008) – xyzmo, the leading international technology provider of comprehensive digital signature solutions, officially announces the opening of its US sales office at the Harborside Financial Center, located across the Hudson River from Wall Street, in Jersey City, New Jersey. xyzmo, headquartered in Ansfelden, Austria, has additional sales offices located in Germany and South Africa. xyzmo, a privately owned company, offers digital signature technology that renders electronic documents legally equivalent to signed paper documents.

The xyzmo Seal and SIGNificant, both innovative digital signature solutions, solve the problem of signing electronic documents securely while simultaneously reducing the costs and labor associated with paper-based processes. The xyzmo Seal contains the following optional features: a trusted third-party timestamp, a company logo and a handwritten signature including its biometric data. The user may add as few or as many of these features during customization. The xyzmo Seal does not require maintaining an expensive PKI infrastructure. xyzmo's software is available for high volume processing or as a server product. xyzmo's technology can be easily integrated into existing IT environments, therefore guaranteeing customers a ROI within 12 months.

After xyzmo Austria's recent success, providing the country's number one mobile operator (mobilkom Austria affiliated with the Vodafone Group) with a digital signature solution at Point of Sale (POS), xyzmo is enthusiastic about offering its exclusive products to the US market. Juergen Hirtenfelder, xyzmo USA's Managing Director had this to say in response to the company's new branch in the US, "After witnessing what our product can do for major banks, telecommunications, insurance and pharmaceutical companies in Europe, it is with great enthusiasm that I announce xyzmo's presence in the US market. We have developed superior digital signature technology that fits perfectly into countless scenarios, providing customers with impressive cost savings and peace of mind. We guarantee our customers a ROI within 12 months."

About xyzmo USA LLC:

"xyzmo USA offers secure signing solutions that save time, money... and trees!" xyzmo's technology fits companies of all sizes and offers advanced digital signature technology that operates without an expensive PKI infrastructure.
